EDUCATION**

Provided by
Farmer Gow's Education Ltd

HOW TO BOOK A MOBILE FARM: Complete our no obligation booking form and send it to us at education@farmergows.co.uk. We will then contact you by telephone to chat through your booking, discuss a suitable programme and check access for our farm truck/trailer. We will follow up the call by email with a programme and a quotation for the visit

The Mobile Farm is confirmed once you reply to our email. Please note – the maximum distance we can travel is 1 hour from the farm. Any further is too stressful for our animals

Regulations

We are licensed to provide a Mobile Farm service with:

- Department for Environment, Food & Rural Affairs (DEFRA)
- Trading Standards
- Environmental Health, Vale of White Horse District Council (VWHDC. Licence No: 20919)

We operate under 3 different Government departments who each have slightly different rules for different reasons - mostly ensuring health and wellbeing of both livestock and you. The rules are complex and different for each farm animal species. The combined effect of these different rules is that we can only undertake one Mobile Farm visit per week. We recommend booking early, to avoid disappointment.

WORKING AREA ACCESS

✓ **Medium Visit**

We will arrive in the farm's VW caddy van. Please provide an outdoor working area, accessible by the van, approximately 6m x 6m. Indoor venue – please discuss with Anne Gow. Access to the van is very important. The van is a secure store for some of the equipment used during a visit.

✓ **Large Visit:**

We will arrive in the farm's truck with a 12' long livestock trailer. Please provide an outdoor working area, accessible by the truck/trailer, approximately 10m x 6m. The truck is a secure store for some of the equipment used during a visit. Access for the truck & trailer is therefore very important.

✓ **Medium & Large Visits**

You are responsible for disinfecting indoor/hard standing areas prior to our arrival and after the visit. We recommend plastic sheeting or equivalent for indoor working areas. Disinfection not required on grassed areas.
